

## I HOPE

By Annie Wilson (Yr 4 Alverton School)

I hope when coronavirus is over I can see my family and friends.

I hope I can go to the shops without staying 2 metres apart.

I hope everyone looks after our planet more than we did before.

I hope all we thank the NHS even more.

I hope racism is finished and we realise everyone is equal.

I will remember laughing with my friends over zoom.

I will remember playing on the swings in the woods

But most of all I will remember what a crazy weird and wonderful time it was.

I hope we can go on holiday and visit friends.

I hope I can go to camp with my school friends.

I hope we protect our planet by not using lots of plastic.

This time next year I will be in a new class.

This time next year I will see my friends

This time next year I will go to the shops and see my family.

I hope. I hope. I Hope.
