

Wednesday 25th March

Good Morning Bodrifty!

Day 3 of home learning and I think that we are getting the hang of things. Thank you so much to all those who have uploaded photos of your work. I will be sharing these on Twitter. You can upload photos straight on to Showbie or send them to this email address:
bodrifty@alverton.cornwall.sch.uk

I did the Joe Wicks exercises yesterday which made my daughter laugh a great deal so she had fun as well as getting moving which is so important - can you persuade your family to join you? -

English- On Showbie

We would like you to learn some poems whilst you are off school. You can choose any poem. However this may be a good one to start with.
This is a poem by Edward Lear and takes approximately 20 seconds to recite. A perfect one to learn and then you can say it every time you wash your hands!

**The Owl and the Pussy-cat went to sea
In a beautiful pea-green boat,
They took some honey, and plenty of money,
Wrapped up in a five-pound note.
The Owl looked up to the stars above,
And sang to a small guitar,
"O lovely Pussy! O Pussy, my love,
What a beautiful Pussy you are,
You are,
You are!
What a beautiful Pussy you are!"**

All the work this week will be based on a lovely short Pixar film called: For The Birds - you may have already seen it. Each day there will be one piece of work set on it.
The link for the film is here and I will also put it into your English Showbie group.

Watch the film For The Birds

Think about our film The Birds.

This is a story about a bird who is being bullied by other birds because of how he looks.

Your task:

Today, we would like you to write a persuasive letter to the smaller birds to persuade them to stop.

Think about what you would say to them... How are you going to persuade them to stop?

Think about your main reasons for asking them to stop bullying- that it's not very nice, they should not judge a book by a cover etc

Could you include rhetorical questions, short sentences, emotive language and a range of punctuation?

Maths - On Showbie - This is for my maths group -

Do it Now - I will now make short videos going through the questions so you understand where you may have gone wrong when you mark your answers.

Hit the Button - Before you do the times table quiz, go on this game and practice your tables doing the division facts aswell!

Times tables quiz - maybe get someone at home to read out the questions for the times tables quiz. This is the perfect opportunity to perfect your tables!

Short and long multiplication - watch the short video of me going through both methods and then have a go at the questions. Let me know how you do!

Science - LIGHT - QUIZZIZ QUIZ WILL BE LIVE AT 2.30 PM!

After yesterday's shadow puppet show. Today have a look at how the shadow is created in a scientific way and draw a picture to show how the shadow is formed. I would like to see some lovely diagrams which you can show me on Showbie.

This Indian lady explains it perfectly!

Have a really lovely Wednesday and send me messages about what you are enjoying about being at home and doing all this home education stuff!

Here is a quote from Thomas Edison

'I have not failed. I've just found 10,000 ways that won't work.' So remember keep trying new things, especially Scientific activities; you may be a genius one day like Thomas Edison!
