

WALT: apply our arithmetic skills.

Awesome Arithmetic!

Work through each question, showing your working underneath. Check your accuracy before moving on!

<p>1. Write this number in words:</p> <p>702</p> <p>_____</p>	<p>7. Add these numbers:</p> <p>2134 + 339</p>						
<p>2. Write this number in digits:</p> <p>Nine hundred and twelve</p> <p>_____</p>	<p>8. Find the number bonds to 100:</p> <p>100 = 91 + _____</p> <p>58 + _____ = 100</p> <p>51 + _____ = 100</p> <p>100 = 18 + _____</p>						
<p>3. Complete these calculations in five different ways:</p> <p>_____ + _____ = 120 _____ + _____ = 120</p> <p>_____ + _____ = 120 _____ + _____ = 120</p> <p>_____ + _____ = 120</p>	<p>9. What is 340 divided by 2?</p>						
<p>4. Partition this number into hundreds, tens and ones.</p> <p>672</p>	<p>10. Subtract these numbers:</p> <p>782 - 126</p>						
<p>5. Compare these numbers using < > or =</p> <p>245 _____ 425</p> <p>278 _____ 287</p>	<p>11. Subtract these numbers:</p> <p>332 - 51</p>						
<p>6. What number is this?</p> <table border="1"><thead><tr><th>Hundreds</th><th>Tens</th><th>Ones</th></tr></thead><tbody><tr><td></td><td></td><td></td></tr></tbody></table> <p>_____</p>	Hundreds	Tens	Ones				<p>12. Use column subtraction to solve:</p> <p>607 - 126</p>
Hundreds	Tens	Ones					
							

WALT: apply our arithmetic skills.

13. Order these numbers, smallest to largest: 424, 124, 142, 24, 422	17. Find six groups of five
14. Add these numbers using column addition: 278 + 292	18. Draw a part part whole model to solve: 27 divided by 3
15. Solve 35×4	19. Solve 22×3
16. Calculate 48 shared by 4	20. Find the missing part. 

My score out of 20: ____/20
What I need to improve on for next time:
