

Woo Hoo Bodrifty it's Friday!

We have now done a full week of virtual learning and we are delighted that so many of you are working hard at home. Obviously it is not the same as being at school but we are trying to make the best of the situation. I hope you are all keeping fit and then keeping your brains active.

Meet our dog Missy who is loving the fact that we are working from home! She has had a good walk today and is now relaxing on the rug.

You could a photo of your pet enjoying having you home if you have one!

Keep yourself physically fit... link here again to Joe Wicks. No doubt you are all more toned now if you have been doing this everyday. <https://www.youtube.com/watch?v=rN0h6EZd6TM>

For those of you who like to dance I tried this one today.... I do love a bit of strictly and Oti made this so simple and so much fun, even I could do it! I did the Shrek kids dance class.

English

When I'm hungry, I eat cars.
I can chew three at a time.
Turning mud to sudsy bubbles
all day long I swallow grime.

My mouth hangs open every spring
luring cars to my garage
with promises of shiny beauty,
cleanliness, a deep massage.

I love all my meals on wheels
antique and sporty, short and wide.
I eat them up. I clean them up.
I spit them out the other side.

© Amy LV

I've decided to find poems for you to read each day. Let me know what you think of them and whether you have memorised one.

Mixing it up a bit for your English today.

Instructions

- Have fun creating some instructions for the following:
- How to care for a pet goblin
- How to get to the end of the rainbow
- Create a magical recipe (how to turn your teacher into a frog)
- How to get home

Or anything else you fancy! Present it anyway you like...cartoon in boxes or acting it out. Just have fun and make your instructions as detailed as possible.

Maths

Last 'Do it now' for the week. Have you done all 4 this week? I hope so...after all it is good to keep a bit of a routine going and you must all be pleased with how much maths you know how to do now.

To complete the four operations, today we will be focussing on division .

So first I want you to go onto Hit The Button and practice your division number facts - it's all about knowing your times tables!

Then watch this video on short division which goes through it just like we have learned.

There are questions to do in your doodle book and a challenge to finish

Afternoon Task

Thought it may be good to do a bit of virtual learning today.

As we are not allowed to visit any attractions, what better activity than to visit Edinburgh Zoo

<https://www.edinburghzoo.org.uk/webcams/koala-cam/#koalacam>

I went on the penguin cam, as I love them .They were busy hopping about this morning!.

This link takes you to lots of different animals. Choose an animal and do some research. How much can you learn about your chosen animal? I now know quite a lot about the blue poison dart frog!

You can produce an information page on pages or popplet or draw a poster/advert in you book about the zoo. You decide!

Happy learning!
