

Morning English Group,

Your work today is based on the movie 'Cloudy With A Chance Of Meatballs 2'. A great film that I'm sure most of you have seen - if not you should!

- 1) You need to start by looking through the powerpoint and watching the short video clip (I've attached the link to the video incase it doesn't work from the presentation)
- 2) Today you're going to focus on the 'foodimal' characters! Keep an eye out for as many 'foodimals' as you can - jot down what you've seen and which foods they are made from! Keep looking through the powerpoint which will show you some of the characters and how they have been created by taking an animal and a food type.
- 3) At the end of the powerpoint you'll see a list of foods followed by a list of animals - how many of your own foodimals can you create?
- 4) Present your work however you like but it might be nice to have a go at drawing some of your ideas!

There is also an activity attached that you might like to have a go at in the afternoon - if you do make some real 'foodimals' please send us some photos!!

As well as this, please make sure that you're reading for at least 20 minutes. Read theory is also excellent practise so please log on and have a go at at least 2 texts.
