

Owls class daily schedule

Reading: read for at least 10 minutes every day and talk to an adult about any words that you don't know. Today get an adult to ask you questions about the book to check that you understand it. (There are resources to support this on the Reading and Phonics page).

Phonics & Spelling: practise your sounds using the video on the Reading and Phonics page. Think of as many ways as you can of writing the ee sound and write down a word for each one. Don't forget to get an adult to check them! Try and login to Spelling Shed every day too.

English: think about the **character** you invented yesterday and imagine the **setting** that they might live in. A castle? A forest? A haunted house? Use lots of **adjectives** to describe your setting and see if you can include a **simile**. Example - the castle's windows glittered like sparkly diamonds in the sunlight.

Maths: practise your 5 times table today - there is a song that will help you on the Maths page. You could also use the link to the Hit the Button game for quick fire tables fun or write them down in rainbow colours to help you remember! Try and login to Reflex every day to practise your number facts. **Login: owls20 Password: 1**

Science: investigate the materials around your home - how many different types can you find? Can you describe their properties using some of the words below?

Properties of Materials		
hard not easily broken or pierced A hard diamond.	squashy easily crushed or squeezed The play dough is squashy.	smooth an even and regular surface Some smooth pebbles.
absorbent able to soak up liquid The sponge is absorbent.	bumpy uneven, raised patches This shell is bumpy.	opaque cannot be seen through She is hidden by the opaque screen.
dull lacking shine or brightness The moth's wings are dull.	brittle hard, but may break easily The glass is brittle.	translucent allowing some light to pass through The screen is translucent.

Properties of Materials		
rigid unable to be bent or forced out of shape Stone is rigid.	transparent can be seen through This glass is transparent.	soft not firm to the touch The kitten has soft fur.
flexible able to bend A flexible spring.	rough uneven, irregular surface The log has rough bark.	waterproof repels water and liquids A waterproof coat.
elastic springs back once stretched An elastic band.	shiny reflects light, smooth surface A shiny silver spoon.	conductor lets heat, electricity or sound to pass through it Some metals are conductors of electricity.

Which materials would you use to make a cage to keep this pesky Mexican mouse in? Draw and label the cage and write an explanation of why you chose those materials.

Get Moving! Which activity will you choose to do today?! You could take some pictures and e-mail me! (owls@alverton.cornwall.sch.uk)
