

EYFS Autumn 2015

What's in MY world?

The focus for this term is the children themselves. We shall be finding out all about them through sharing their boxes that they have brought in from home, talking about who lives at their house with them and drawing all the members of their family, including their pets. We shall also be encouraging the children to talk about their likes and dislikes, hobbies and pass times and generally taking time to get to know one another.

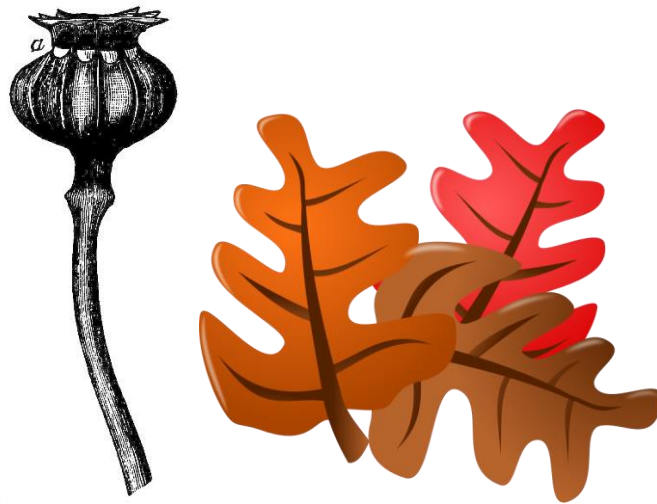

As the children gain confidence in their surroundings we shall be exploring further afield. The children will be finding their way around the school doing number and letter hunts and learning all the routines that keep the class and the school a safe and exciting place to learn.

As the weather turns more Autumnal we will be taking the opportunity to explore the wider world and taking the children into the school woodland and field for outdoor discovery learning. We will be making collections of sounds, colours, natural objects and tiny things that fit in a matchbox. The children will have lots of opportunities for explaining what they already know and asking questions as well as trying to find the answers to those questions. We shall also

be learning a couple of Autumn themed stories which relate to harvest and taking a really close look at seeds and leaves in all their forms and doing lots of creative activities from printmaking to making natural sculptures.

We will be holding our first ever EYFS Exhibition- "A day in my world". Children will be making posters, producing beautiful art work and writing their own invitations to family members to come and play for the afternoon and see for themselves how busy we have been.

As the term heads towards Christmas we will of course be focusing on the nativity story. The children will be performing their play to an audience and learning lots of songs to entertain you all with. In the classroom we anticipate Santa's workshop being a very busy place with children writing lists and cards, wrapping presents and delivering them around the classroom.
