

Natural Disaster Art Challenge!

This term we have been thinking about 'Natural Disasters'. We have been writing explanation texts about volcanoes and why they erupt. There are other disasters we could find out more about - but let's do it in a creative way!

Just as we drew cross sections of volcanoes in our Geography lessons. We could find out and describe another type of disaster by drawing and ;labelling a detailed drawing.

You could research and draw a diagram about a tsunami or an earthquake for example.
