

## THE STONE AGE FRIDAY PROJECT

Prehistory is the name given to the time before writing first started. Because of this, there is no written record telling us how people lived in those times so archaeologists have been trying to work it out through artefacts they have found.

Prehistory is divided into three periods, the Stone Age, the Bronze Age and the Iron Age.

Today we will be looking at the Stone Age.

I want you to prepare a presentation about the Stone Age

Look through the powerpoint, watch the films then work out what you are going to do.

I want to see that you understand the 3 different parts of the Stone Age: palaeolithic, mesolithic and neolithic. Lithic means stone; palaeo means old; meso means middle and neo means new

I want you to produce a piece of work about the Stone Age.

It could be a film, cartoon strip, animated picture, speech, imovie with a voiceover - whatever.

You can either do it about:  
life in the Stone Age  
diary of a stone age kid  
how they hunted  
what tools they used  
anything at all or all of it.

BUT, IN IT I NEED TO SEE  
the differences between palaeolithic, mesolithic and neolithic
