

Alverton School

The Woodland Nursery

This week we have had a big focus on numbers and counting. We have been playing path games where children roll the dice, count the spots and move themselves or an object along the steps. We've played this game in the woods, jumping from stump to stump, in the classroom with mini individual trays and on our new number line. We have seen some great turn taking and the children have been full of ideas about forfeits if you fall off the logs or land on a certain square-usually involving being eaten by a wolf! We have also been using mixed media to make flowers for Grandma, like in the story and the play dough table has seen LOTS of wolfy creations-terrifying! The children have also been following their own interests and this week the light box has proved a firm favourite while children use the construction materials to make their own pathways, treasure boxes and buildings to house various vehicles.

If you need support logging on to your account please see the school office. There's lots of lovely pictures of your children on there already!

Jensen, Henry and Leo, deep in concentration on the light table

Don't forget-tea and cake and an informal chat with the staff who work with your children on **Wednesday 16th October**. We'd love to see lots of you there. Staff from the school will also be popping over to help eat the cake....

We have lots of lovely books in Nursery that we are happy for you to borrow. Please see Mrs Roberts and she will be happy to help your child select a book.
