

Tuesday.

Today, you're going to choose one of the characters that you created yesterday - which were amazing by the way! Some of my favourites were; a Capple (cat, apple), a sausish (sausage, fish) and snakizza (snake, pizza). We will then begin to develop the character. The slides will help you to think about the different elements of the foodimals character that you will need to consider - for example; diet, habitat, personality, movement.

There is an activity sheet for you to either print and fill in or just use the layout and work straight into your books.

There is another 'Home' activity which you could have a go this afternoon! Making invisible ink today- definitely something I'm going to try out!!
