

Good Morning Everybody!!

Welcome to your Easter holidays!

We will not be setting any Maths or English over the next two weeks, but we are going to be suggesting lots of different activities you can try at home if you fancy.

There will be links to all kind of things to try, make, explore and discover, so dive in and have some fun.

Today's suggestions.

First of all, make sure you keep up to date with The Hobbit on the school website!

IF you go on Showbie- there are some lovely activities to do.

Take a Code Break

With schools closed and tens of millions of students at home, Code.org is launching Code Break — potentially the world's largest live interactive classroom with weekly challenges to engage students of all abilities, even those without computers.

Let us teach your children:

A weekly interactive classroom featuring our founder Hadi Partovi and special guests. Add to calendar.

A weekly activity or challenge. Sign up.

Options for beginners, experienced students, and even students without computers.

Link <https://code.org/break>

ExpeRimental

A series of short films making it fun, easy and cheap to do science experiments at home with your children (or parents!)

Link <https://www.rigb.org/families/experimental>

World Wildlife Fund

Lots of activities here to either do when you fancy, or watch live at different points during the week.

You can share any of your triumphs or disasters by emailing it to:

kenidjack@alverton.cornwall.sch.uk

bodrift@alverton.cornwall.sch.uk

Some more that you might enjoy:

Websites you may enjoy.

David Walliams has put 30 of his stories to listen to on this website. We know lots of you love his books.

<https://www.worldofdavidwalliams.com>

This is an activity that I tried! This lady from Knee-high made me laugh a lot. I have included my effort. Then I made some soup! (Left out the tulip petal hair though!)

<https://www.youtube.com/watch?v=DdzP9rAXIQI>

There is so much great stuff on the Edinburgh Zoo website. Webcams to watch and information about their animals. You can lose yourself for hours and learn so much.

<https://www.edinburghzoo.org.uk/>

Another website some of you may like is The Guggenheim Website. This is a link to the one in New York. (thank you Ned, your Pop art was amazing last week. This link takes you to the artist

Vasily Kandinsky who I love. However you can have a look at see what pictures you like. I am going to try and create one of these!

<https://www.guggenheim.org/artwork/1972>

Finally if you have any of these ingredients in your kitchen why not do a bit of Science? (You know it will keep me happy.) I am going to make my own lava lamp! Just remember to ask an adult before you use all the vinegar, salt and milk!
