

Welcome to Wednesday people. I hope you really well and coping with our strange new world. I am so impressed with the amount of work some of you are getting through. It is great to see everything you are sending in on Showbie and via email each day.

So what's on?

First you can't beat the Joe Wicks wake up routine so let's get on it.

English

- 1) A new Word of the Day on your Showbie page.
- 2) Describing a sinister setting based on the Hobbit.

On your Showbie page you will find all the resources for this lesson. Firstly, watch the three videos (top one first) in which I model how to write a sinister setting description. I have provided you with a list of elements which give suspense, and also a list of grammatical features to include. There is also a page containing images of the Goblin Caverns from The Hobbit, which is what I would like you to describe.

Good Luck!

Maths

As per

Questions

I am here if you need a hand with anything.

Science

BECOME AN ALCHEMIST

Today's Science involves some chemistry and is a great fun thing to do!

In English this week, the year 5's have been writing about an Alchemist who turned objects into gold. So what better Science this week than to turn all you lovely children into Alchemists yourselves.

Let's see if you can discover how to transform a simple object!

There is a video for you to watch and follow.

You will also need:

- some liquid soap/washing up liquid
- salt
- vinegar
- old 1p or 2p coins
- 4 dishes/containers

Follow the link below, and as usual, send photographs of your Alchemist's exploits to us so we can see the fun you have been having.
