

This week we are going to start adding all of the resources for the week's learning to Showbie. There will be a file for Reading, English, maths and project. There will also be a file with the activities for the whole week listed separately.

When you go on to the Kerris 19/20 class page you will see options that look like this - hopefully!

Each folder will then contain all of the resources you need for the week's home learning.

There will still be an assignment below, this for the children to share their learning for the week with me and ask any questions they may have.

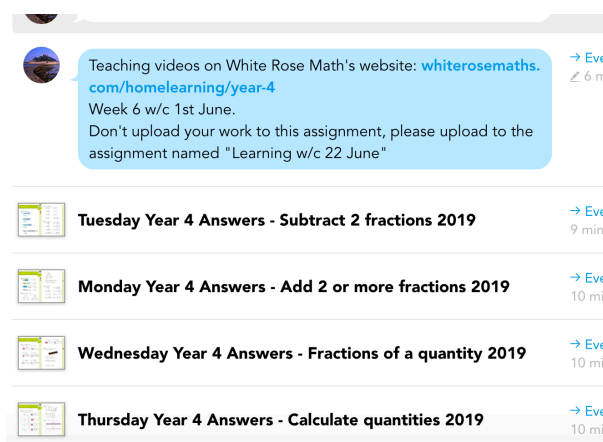

I will be available on Showbie from 9:00 until 12:00 and again from 1:00 until 4:00. This will be different on the days I am working in school but I will try my best to get back you as soon as I can!

Children will be able to access the class discussion facility between 3:00 and 4:00 on weekdays.

Inside the subject folders, you will find an assignment with the resources for the whole week; including a link to any websites and any worksheets the children may need. (Please only print off if you need to, we are more than happy just to see the work the children have done!)

Please don't save your learning in this folder, upload to the Learning from w/c... folder in the normal place.

We will still put the work on the school website, hopefully this will make things easier for the children to access what they need as independently as possible.

As always, if you have any questions, please contact your child's class teacher on the class email. [trencrom/lanyon](mailto:trencrom/lanyon@alverton.cornwall.sch.uk) or [kerris@alverton.cornwall.sch.uk](mailto:kerris@alverton.cornwall.sch.uk).

Thank you again for your ongoing support

The LKS2 Team
